**Health Disparities Project Launched  
Under Center's Community Equity Lab**

The Health Disparities Project's foundational work began with a survey to evaluate the overall community health of the Coconut Grove Village West neighborhood. This work is supported by the University of Miami's Laboratory for Integrative Knowledge, a grant program that funds innovative interdisciplinary collaborations. Alongside our Miller School of Medicine partners, community leaders' input played an integral role in the survey question selection and its implementation.
